and Great Shopping*

North City Project

Please pardon our dust while we remodel

Overview & History

The City of Shoreline's North City Project is a series of capital investments designed to improve the look and feel of the commercial shopping district, including traffic flow, traffic safety, street lighting, and pedestrian comfort and safety. This includes undergrounding electric wires, upgrading utilities such as water and sewer, and installing new signs, benches, planters, street trees, patterned sidewalks at intersections and printed crosswalks.

With the help of residents, business owners and potential developers, the City of Shoreline completed a North City Subarea Plan in 2001 to encourage redevelopment of this neighborhood business district. In addition to the capital investment, the City has also put in place streamlined permitting processes and tax incentives to support new redevelopment.

Construction start: **May 2005**
Project completion: **May 2006**
